

SubNet Services Ltd. QUALITY POLICY

SubNet Services Ltd. provides a range of Independent Consultancy services, including but not limited to Auditing, Risk Assessment, Project Management, Installation, IT Services and Industry Software Development, Commissioning and Procurement Services, Trials and Reporting and Human Resources throughout the Diving, Rov and Sub Sea Industry.

The industry in which the Company operates places continued emphasis on quality and safety in all aspects of the services supplied.

The Company's management is committed to providing services that enhance customer satisfaction by meeting all customer requirements for services while maintaining quality and safety standards.

SubNet Services Ltd. maintains a Quality Management System (QMS) in conformance with the requirements of ISO 9001:2000 and other applicable codes and standards to ensure the highest level of quality and safety for its employees, customers, and the environment. The QMS is designed to reflect accepted standards for the effective monitoring, control, and maintenance of all processes, stated in the QMS, relating to the quality and safety within the Company.

The Company requires the full cooperation and commitment of all employees to maintain, and continually improve the effectiveness of, the QMS. The Company will provide its employees with equipment, procedures, work instructions, training, and supervision necessary for the successful implementation of QMS policies. Each manager will be responsible for continually monitoring the QMS in order to ensure its effectiveness.

Top Management consisting of the Directors will review the QMS, including this quality policy statement and company quality objectives semi-annually to ensure its continuing suitability, adequacy, and effectiveness.

SubNet Services Quality Management System is detailed in the Company's QMS Manual and associated procedures.
